Letter from the President

Dear SF Bay Area NAPNAP Members,

As we are ending our June 2018-2019 term and prepare for next year, I want to thank all of our members who have supported our events and our board members who have worked hard to provide our community with high quality educational events. I am thankful to have served as this year's president, and I am grateful for the diligent work the board members put in to stay connected with the NP community. We hope our members have continued to find value in our educational and social events.

We are continuing to look for new board members to fill a few available spots on next year's board over the next week, and we encourage our membership to inquire about the roles and apply. Ballots will go out by mid-May, so please vote on our candidates.

We hope to see many of you at our next CE presentation on food allergy updates in Oakland on May 20. You can register via eventbrite at our website, www.sfnapnap.org; registration will close the week before.

We're excited to bring you another year of educational and social events. As always, we appreciate your feedback and suggestions about how we can better serve our local membership. Please email napnapsf@gmail.com with any questions or suggestions. Thank you again, and we hope to see you soon.

Sincerely,
Claudine Cho, MS, RN, CPNP
SF Bay Area NAPNAP President
Greetings, everyone, from your legislative team!

The 2019-2020 California State legislative session reconvened after the holiday break on January 7th. Numerous bills pertaining to child/adolescent health, access to care and nurse practitioner scope of practice are currently alive in the CA Assembly and CA Senate. Below, please find the current status of these bills as of 4/30/2019.

Legislative Report (cont.)

At [http://leginfo.legislature.ca.gov/faces/home.xhtml](http://leginfo.legislature.ca.gov/faces/home.xhtml) you can find not only the bills that have an impact on our patient population, but also the names of the bill sponsors. Contact information is publicly available for each of these Assembly or Senate sponsors. You can also create a free account in order to track bills of interest. The website will send notifications (if desired) for updates on the status of the bills.

NAPNAP National Child Health Policy Learning Collaborative had a call on May 3, 2019 to address the funding changes to Title X. The link to Kaiser Family Foundation information on the topic can be found here: [https://www.kff.org/womens-health-policy/issue-brief/proposed-changes-to-title-x-implications-for-women-and-family-planning-providers/](https://www.kff.org/womens-health-policy/issue-brief/proposed-changes-to-title-x-implications-for-women-and-family-planning-providers/).

Per the CHPLC website: “The Administration's final rule regarding Title X, a federal family planning program that is utilized to fund nearly 4,000 clinics nationwide and has helped serve 4 million people has caused a lot of concern in the healthcare community.” Lauren Weiss, Director, Advocacy & Communications at the National Family Planning & Reproductive Health Association, joined callers to discuss the impact of the Title X regulations and pending litigation that will challenge the rule.

As always, we strongly encourage you to get involved in advocating on behalf of children, families and APRNs. For more information on how you can be involved please visit the NAPNAP website at [www.napnap.org/advocacy-center](http://www.napnap.org/advocacy-center).
